Good afternoon Brad:

Thank you for your quick response, and copying NCC.

We are even grateful for all of the security and surveillance measures in place! Thank you!

Crystal

Good Afternoon Crystal,

Thank you for your email. I have included my colleagues from the NCC as the National Aboriginal Veterans Monument and Monument to Canadian Fallen (Korean War Monument) are located on lands under the administration of the NCC. We are working closely with NCC to support them logistically with any request to fence monuments on their lands as required.

With respect to the National War Memorial in addition to the temporary fencing PSPC staff are monitoring (24hrs) the Cenotaph and Tomb of the Unknown Soldier remotely via our security cameras.

Please don't hesitate to contact me should have any questions or need for support.

Regards

Brad Paradis

Subject: Veterans Monuments

Good afternoon Stephan and Brad:

First off, thanks to you and your team for the work you have undertaken over the past number of days to ensure the safety and security of the National War Monument, Tomb of the Unknown Soldier and National Aboriginal Veterans Monument. I know that the circumstances are challenging, and erecting fences in the winter is daunting.

I am touching base to see if there are plans for fences around any other monuments in the downtown area, specifically the Monument to Canadian Fallen (Korean War Monument). I am not requesting a fence be erected because I respect the jurisdiction and role of PSPC and NCC. Rather, I am preparing for any questions that we may receive from Korean War Veteran stakeholders.

Please let me know if there is anything we can do to assist.

Thanks,
Crystal
